First International Summer School on Rough Sets: Decision Making, Data Mining, Knowledge Representation
Milano 25-29 July 2016 Lectures

- Introduction to Rough Sets, Andrzej Skowron slides
- Applications of Rough Sets in Data Mining and Machine Learning, Hung Son Nguyen slides
- Knowledge Representation: a Rough Set Perspective, Yiyu Yao slides
- Rough sets and Big Data, Tianrui Li slides
- Rough Set Theoretical Foundations, Jouni Jarvinen slides1 slides2
- Rough Sets and Decision Making, Salvatore Greco Short Seminars
- Rough Sets in Data Mining and Remote Sensing Images, S. Minz slides
- Three-valued logics, Orthopairs and Rough Sets, D. Ciucci
